

Press Release

New top NDT job appointments at Proceq

Global leader in portable measurement solutions for non-destructive materials testing, Proceq, announces new appointments which will strengthen further the company's investment in the business – and in the highest caliber staff.

Schwerzenbach/Switzerland, October 3, 2017 – Proceq has confirmed six new appointments, along with the creation of a strategic new role within the business.

Isaak Tsalicoglou

Gunnar Schröder

Isaac Heng

Malik Kayous

Dr. Teddy Loeliger

Cengiz Tugsav K p c 

As of October 1st 2017, Isaak Tsalicoglou will be appointed Head of Product Management, based at Proceq's Swiss Headquarters. Isaak has an engineering degree from ETH in Zurich and an MBA from IMD in Lausanne. He acquired an impressive track record at ABB and Hilti in harnessing new technologies to drive business growth, as well as in leading teams to success.

Also joining Proceq on the same date is Gunnar Schröder who will be taking over responsibility for the Europe, Middle East, Africa, Russia (EMEAR) region along with digitization of company processes for sales and marketing. Gunnar has 15+ years' experience in the successful development of businesses, customers, processes, organizations and brands, as well as expertise in B2B, high tech capital goods and industrial markets. His often innovative approach to sales has created high achieving teams.

Isaac Heng has just taken up the post of Senior Manager New Product Commercialization based in Singapore. He brings with him a background in specialist NDT technology with Olympus, and experience across a number of industry sectors. Isaac has an established history of delivering dynamic business growth and of developing and leading highly successful teams.

Also Malik Kayous, another portable non-destructive testing specialist in advanced flaw detection solutions, will join the EMEAR sales team. With his engineering background, Malik has built a long track record in GE, Alstom and TWI, and will now further strengthen the company's capabilities to support advanced tomographic solutions.

Meanwhile, Dr. Teddy Loeliger who was appointed as Co-Head of Technology in February 2017, now takes full control of the post with immediate effect, as Head of Technology.

Cengiz Tugsav Küpçü, will join Proceq on October 1st as Group Leader Electronics. A Master of Science graduate of Middle East Technical University Ankara, Cengiz comes with a solid track record in heading digital design and sensor groups and projects, in various industries and countries. He will lead a team of electronics and sensor specialists, including also recently joined EPFL Lausanne graduate Dr. Juan Sebastián Rodríguez Estupiñán who brings comprehensive knowledge in multi-domain system design in both academic and industrial projects.

Proceq CEO Ralph Mennicke said: *"We are delighted to welcome new talent to Proceq. The Proceq team is now strengthened both by new expertise and redeployment of best experience on our journey to propel the company to new heights of excellence in the NDT field."*

Marcel Poser, Proceq Executive Chairman and Tectus Group CEO commented: *"The major investment in exceptional people will continue at Proceq, as with other Tectus Group companies. We believe firmly in the acquisition of the right talent to form teams to drive our businesses forward and will continue to invest."*

About Proceq SA

Since 1954, Proceq of Switzerland has been providing innovative testing solutions for the energy, construction, automotive, material testing and manufacturing industries. With its extensive portfolio of high quality Swiss-manufactured technology and best-in-class research and development, Proceq is now shaping the future of portable materials testing (NDT) globally.

After the 2016 launch of Equotip® Live, the world's first Internet of Things wireless hardness tester, Pundit® 250 Array, the fastest ultrasonic imaging scanner and Profometer® 6, a cover meter with Artificial Intelligence function, the company is poised to set still more benchmarks in 2017. With subsidiaries in North and South America, United Kingdom, Russia, the Middle East, China and Singapore, Proceq provides its international customers with excellent local support.
