

Equotip 550 Portable Rockwell

Evaluating hardness of medical wires

Proceq customers need to verify HRA and HRC hardness values of very thin 3 - 5 mm medical wires. The alloys to be tested are stainless steel, copper, aluminum and brass. The Equotip 550 Portable Rockwell probe installed in the measuring clamp fits the application perfectly and delivers the required results quickly and easily. The simplicity and portability of the Equotip 550 is greatly appreciated by the customers.
