

Equotip 550 Portable Rockwell

Hardness testing of watch components

Proceq's Equotip portable hardness testers have become established as a globally recognized measuring technique in different fields of application - Oil & Gas, Automotive, Aerospace and Steel Working.

Furthermore, Equotip 550 Portable Rockwell fully meets the demand for non-destructive hardness testing in the watch industry. Especially when it comes to hardness testing of the body, hand or gear-wheels, the Equotip 550 Portable Rockwell used with a measuring clamp is perfectly suited.
